Hi Jason,

Good to have you as a Windley member.

I'm based in the UK myself but have Windley family across the globe including the US. I moved this post to the Americas geographical section as this is where you are based and helps people to find people in different regions.

A ghost post will remain in the announcements section.

I will soon have the family tree mechanism working which should produce some interesting Windley info.

All the best.

B)
