## Windley history - Australia back to the UK from 1737 to present day

This information was generously donated by Laurie Holmes.? A fantastic piece of research.? Laurie is interested in expanding on this work and would like to connect with other Australian Windley members, which is the whole purpose of this site.? This work can then expand globally.? ?:)? Lets keep the ball rolling Windleys.

It is not considered to be totally complete or wholly accurate just a good starting point for expansion and clarification.

There are 7 generations of Windleys in Australia with over 3300 of them recorded in Lauries family tree. There are two different spellings ? Windley and Winley.? This also matches with our findings in the UK, in addition we have a Wyndley spelling also.? You can read more about Lauries research and family connections here:

Hi Aussie, My Gt.Gt.Gt. Grandfather arrived in NZ About 1840. He had a brother whom we think stopped off in Australia. My youngest brother now deceased has a family in Melbourne. We are descended from Thomas and Sarah (Oldknow). I dont have their details to hand at this time. My nephews name is William(Bill). I believe the ship was named the Lady Neugent and berthed in Wellington. When I dig out all the Windley Info. I have I will post it on this site. Kiwi.
